

Church of Bass: One-Page Equipment Sponsorship Brief

Prepared: 2026-06-05

Church of Bass is a church and religious community worshiping through bass, dance, rhythm, silence, consent, and care. We are building a mobile worship environment and seeking in-kind equipment sponsorships, loaner/demo support, used gear, B-stock, rental sponsorships, or community pricing.

Current Status

Church of Bass is a church and religious community relying on the IRS automatic church tax-exemption rules for churches that meet IRC Section 501(c)(3) requirements. Church of Bass does not claim an IRS determination letter and does not provide donor tax advice.

What We Need First

- Safe sound system: PA tops, subs, digital mixer, microphones.
- Power and safety: distro, cable ramps, SPL meter, hearing protection.
- Lighting: LED wash fixtures, controller, basic feature lights.
- Mobile logistics: racks, flight cases, carts, labels, storage.
- Documentation: camera/audio recorder kit to produce sponsor proof.

Sponsor Value

Sponsors can receive public thanks, website listing, product-in-use media, launch documentation, and a post-event case study. We will only announce support after terms are confirmed.

Best First Contact

Please route this to sponsorship, marketing, artist/community relations, dealer programs, B-stock/demo inventory, or local rental leadership.
